

SekoPay

Shariah Compliant Financial Ecosystem

Problems With Existing Platforms

- Poor Security
- Lack Of Transparency
- Poor Customer Service
- Low Levels Of Liquidity
- Poor Customer Support
- False Trading Volumes

Sekopay Shariah Compliant Blockchain Eco-System

Centralized Exchange

Bitcoin trading platform that is used to buy, sell & exchange cryptocurrencies.

Convert fiat currency (GBP, Euros, etc) to cryptocurrencies (Bitcoin, Ethereum, etc).

De-Centralized Exchange

Using DeFi, you access your funds using a secure digital wallet. When you want to transact, you can through smart contracts, which means you and the other party agree to a number of specific conditions.

Sekopay Defi Wallet

Shariah Compliant self custody DeFi multi-chain wallet, manage store & exchange cryptocurrencies
Store NFTs and digital collectables.

Sekopay NFT Marketplace

An NFT marketplace for Artists, Artists can upload their artwork to the marketplace, and the underlying smart contracts will convert file into a unique NFT token on the blockchain.

Solutions

Our **Development** Team combines a passion for the cryptocurrency industry, expertise & proven record in finance, **development**, marketing & licensing.

User Traction Projection

Value Proposition

Asset Security

Sekopay exchange has a multi cryptocurrency wallet secured by elliptic curve and multi-signature technology to facilitate seamless protection of stored offline digital assets.

Liquidity

Sekopay Exchange has been integrated with multiple liquidity options to ensure a full order book and therefore seamless trade executions under all market conditions.

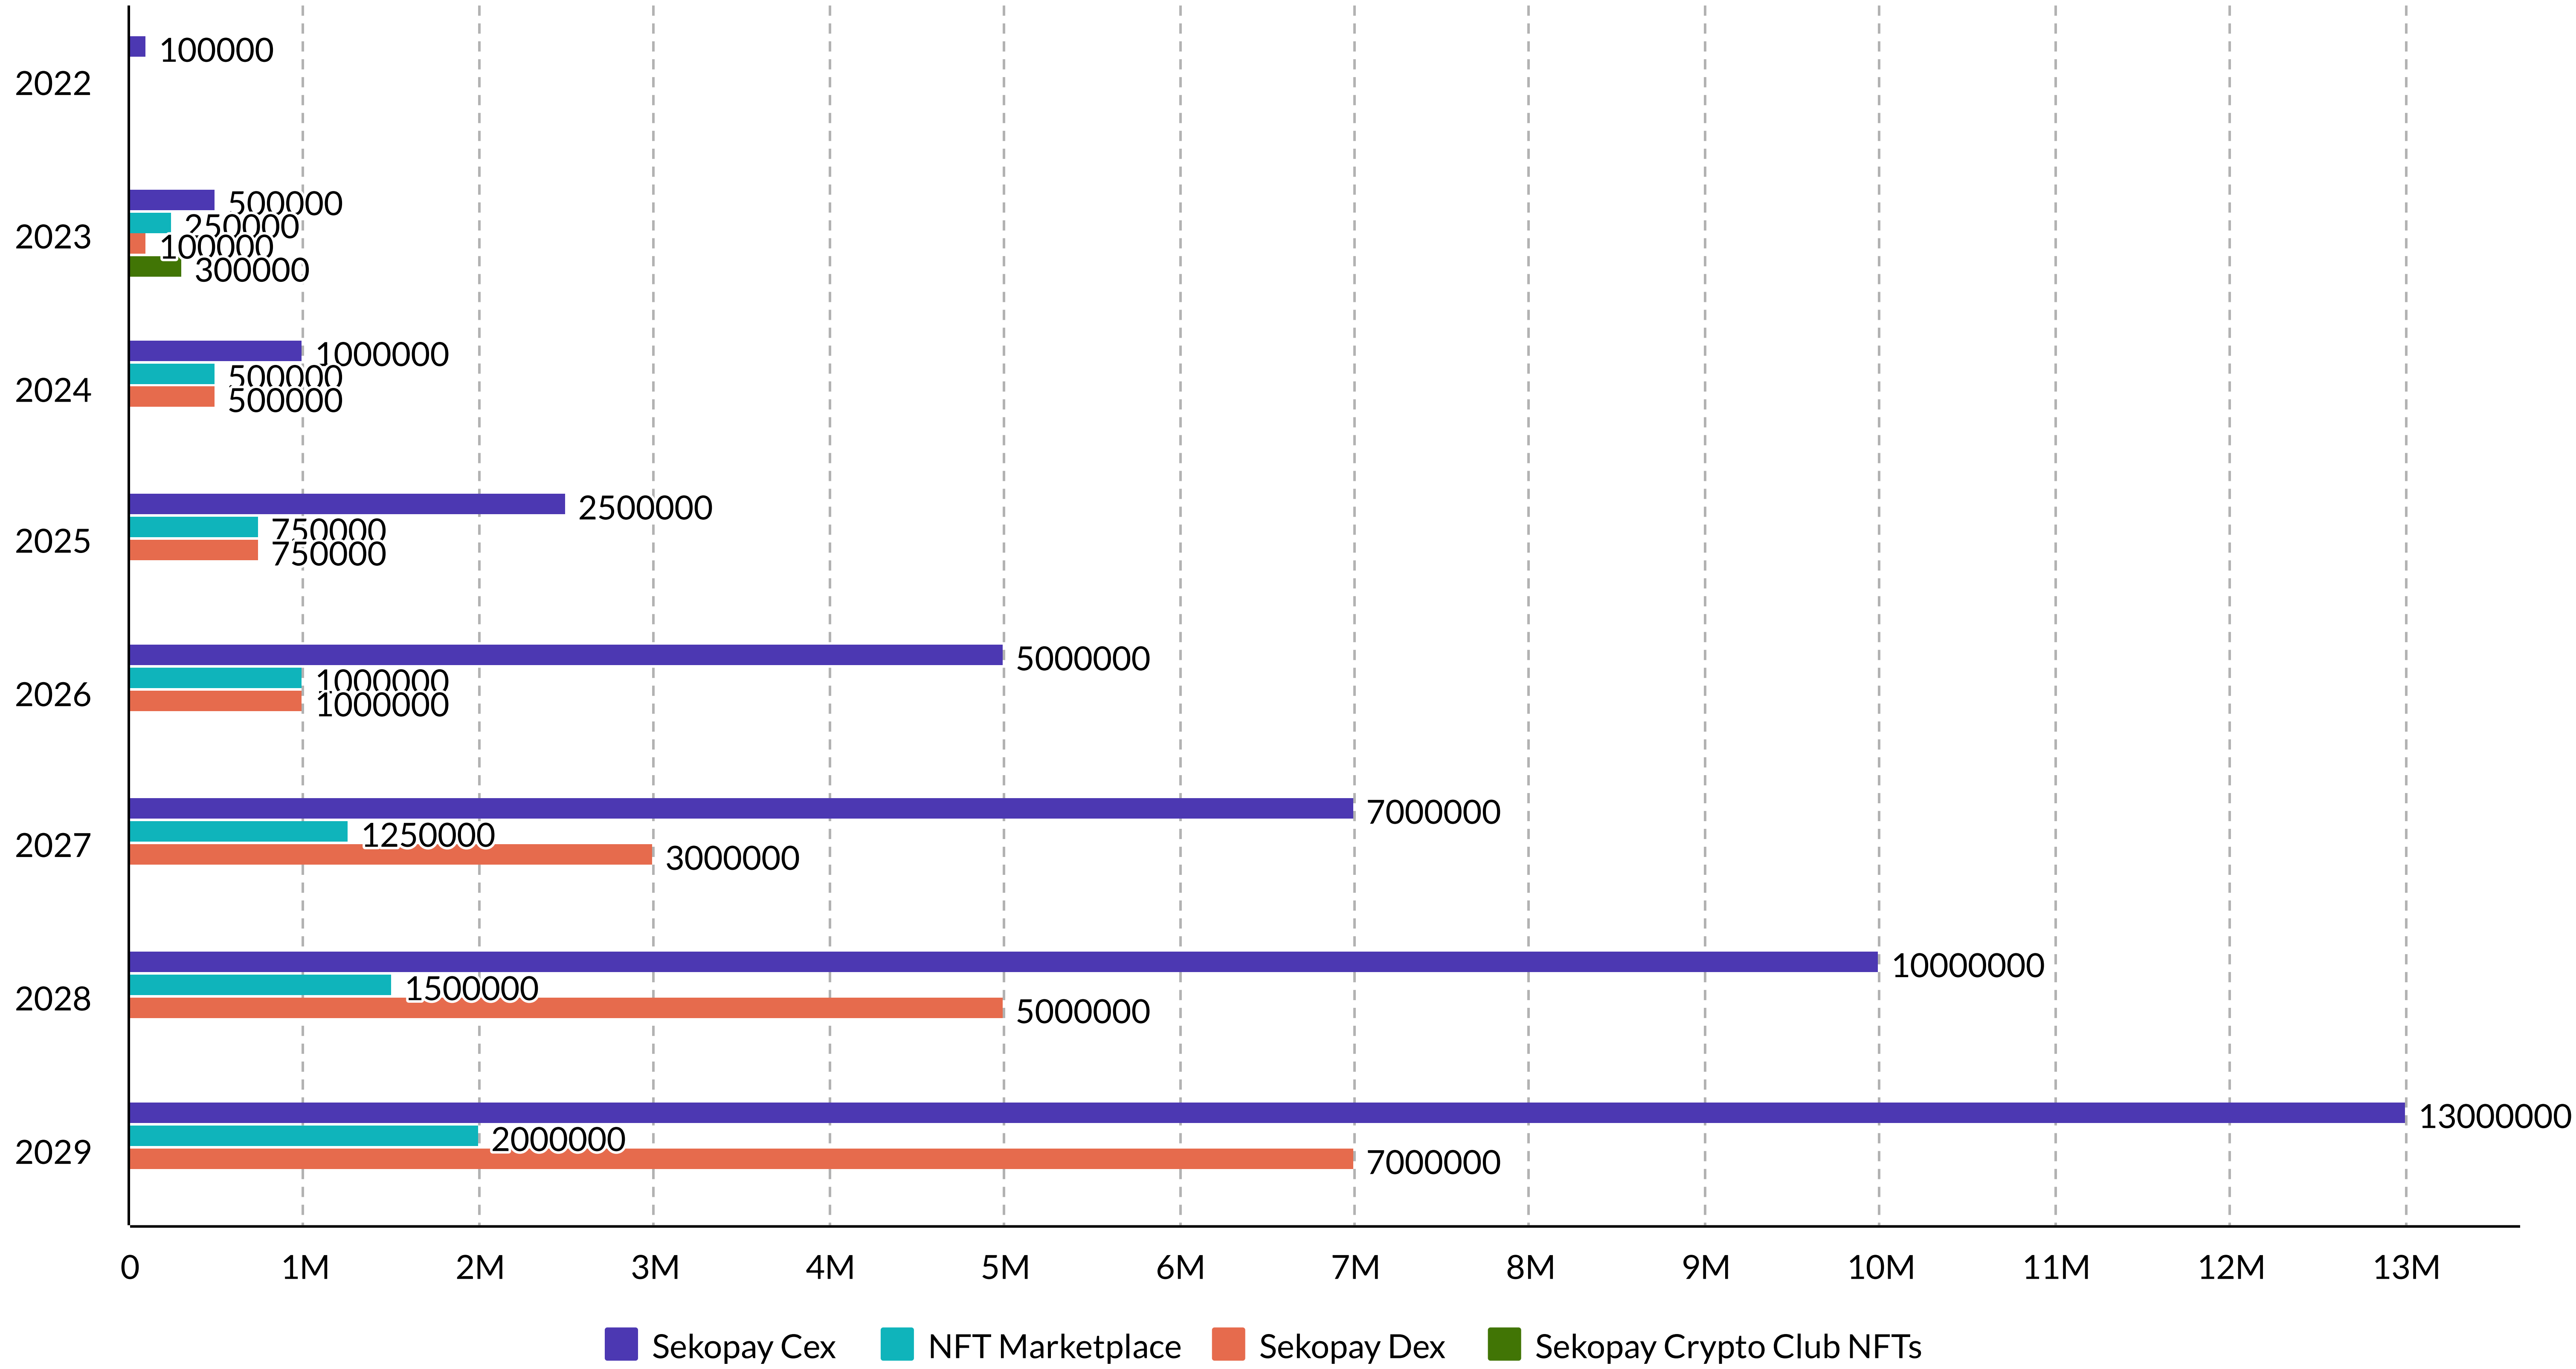

High Volume TPS

Sekopay crypto exchange ensures world-class performance by processing 100,000 transactions per second.

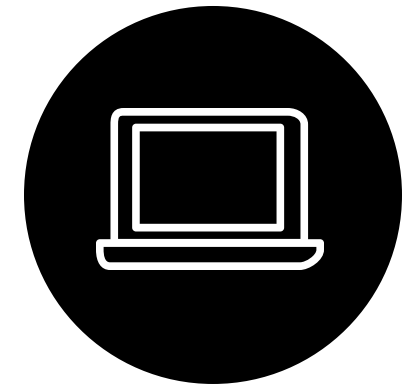

User Security

Data encryption averts the risk of unauthorized users accessing user credentials and other confidential data also integrated with the 2FA mechanism for additional login security.
